Statistics concerning problems with overweight and obesity, and the related health problems are staggering. Health experts talk about the obesity epidemic and it's not confined to adults only. The prevalence of obesity in children in the affluent Western societies is on the rise with an alarming rate, and much needs to be done to ensure we and our children have a healthy future.

Most people would agree that everything starts with healthy eating habits, but what if obesity is already the problem and what if you are already facing problems with high blood pressure?

Then there is the DASH diet. (Dietary Approaches to Stop Hypertension)

The purpose of this e-book is to present you with a dieting method that has been heralded by many health experts as safe and easy to implement. Countless satisfied users have gotten results within weeks.

We will take an in-depth look at the reasons why the DASH diet has been so successful, how to implement it and why it is so important to maintain a healthy life style.

While the DASH diet that we will discuss in this e-book is not in any way meant to override the advice, counsel and treatment described by the medical world, it may come as a surprise to you that there are many simple things that can be done, that are relatively cheap, to aid your body and to work towards better health.

Working on lowering your blood pressure and getting rid of those annoying extra pounds, doesn't have to be such a major battle, in which you constantly have to fight off your cravings and temptations and take all the fun out of life.

If you want to live a healthier, happier life, using a diet that is still enjoyable, then this eBook is for you!
