Number: The Language of Science

Tobias Dantzig, Joseph Mazur

Number: The Language of Science Tobias Dantzig, Joseph Mazur

Number is an eloquent, accessible tour de force that reveals how the concept of number evolved from prehistoric times through the twentieth century. Tobias Dantzig shows that the development of math—from the invention of counting to the discovery of infinity—is a profoundly human story that progressed by “trying and erring, by groping and stumbling.” He shows how commerce, war, and religion led to advances in math, and he recounts the stories of individuals whose breakthroughs expanded the concept of number and created the mathematics that we know today.

Kathleen Huckaby:

As a student exactly feel bored to help reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just very little students that has reading's soul or real their passion. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that examining is not important, boring and can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Number: The Language of Science can make you truly feel more interested to read.

Sean Martinez:

What is your hobby? Have you heard in which question when you got students? We believe that that question was given by teacher for their students. Many kinds of hobby, Every person has different hobby. And you know that little person just like reading or as studying become their hobby. You must know that reading is very important as well as book as to be the point. Book is important thing to add you knowledge, except your own teacher or lecturer. You discover good news or update concerning something by book. Numerous books that can you choose to adopt be your object. One of them is this Number: The Language of Science.
