Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) Center for Gifted Education, Virginia Caine Tonneson

Splash! is a mathematics unit for high-ability learners in kindergarten and first grade focusing on concepts related to linear measurement, the creativity elements of fluency and flexibility, and the overarching, interdisciplinary concept of models. The unit consists of 13 lessons centered on the idea of designing a community pool. Students examine the question of why we measure, the importance of accuracy in measurement, and the various units and tools of measurement. The unit presents a hands-on, constructivist approach, allowing children to build their knowledge base and their skills as they explore mathematical ideas through play and planned investigations. Students are involved in creative and critical thinking, problem solving, process skill development, and communication.

From reader reviews:

Diane Adams:

Book is to be different for every grade. Book for children until eventually adult are different content. We all know that that book is very important for us. The book Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) ended up being making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The reserve Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) is not only giving you more new information but also to get your friend when you truly feel bored. You can spend your own personal spend time to read your guide. Try to make relationship using the book Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units). You never experience lose out for everything in case you read some books.

Tenesha Little:

The particular book Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) will bring you to the new experience of reading a new book. The author style to elucidate the idea is very unique. If you try to find new book you just read, this book very acceptable to you. The book Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) is much recommended to you to learn. You can also get the e-book from the official web site, so you can quickly to read the book.

Everett Barton:

This Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) is brand new way for you who has interest to look for some information mainly because it relief your hunger associated with. Getting deeper you on it getting knowledge more you know otherwise you who still having bit of digest in reading this Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) can be the light food in your case because the information inside this book is easy to get by simply anyone. These books produce itself in the form that is reachable by anyone, yes I mean in the e-book application form. People who think that in e-book form make them feel sleepy even dizzy this e-book is the answer. So there isn't any in reading a publication especially this one. You can find what you are looking for. It should be here for you. So , don't miss it! Just read this e-book sort for your better life and also knowledge.

Sylvia Alexander:

Do you like reading a book? Confuse to looking for your preferred book? Or your book had been rare? Why so many issue for the book? But almost any people feel that they enjoy with regard to reading. Some people likes looking at, not only science book but novel and Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) or even others sources were given expertise for you. After you know how the good a book, you feel desire to read more and more. Science publication was created for teacher or perhaps students especially. Those publications are helping them to add their knowledge. In some other case, beside science reserve, any other book likes Splash!: Modeling and Measurement Applications for Young Learners (A Mathematics Unit for High-Ability Learners in Grades K-1) (William & Mary Units) to make your spare time much more colorful. Many types of book like this one.
