Did you ever wonder why people of the same sun sign are so different? What makes us different from each other?

Besides the sun sign, the other planets in our birth chart also influence.

How to adapt to a new environment, what is our behavior and what is our relationship with your mother and your own family, tells us the Moon and at what sign falls.

How do we think, do we easily learn, are we sociable - the sign of Mercury responds to these questions.

How we love and what we like - the sign of Venus tells us.

How we argue and how we defend our positions - the sign of Mars tells us.

How we behave in our society shows the sign of Jupiter.

What we think of support in our lives, and what we fear from, shows us the sign Saturn.

This book will give you all the answers, if your personal planets are in the sign of Gemini. One different and more thorough look over your personality.

Enjoy reading!
