A First Course in Modular Forms (Graduate Texts in Mathematics, Vol. 228) Fred Diamond, Jerry Shurman

This book introduces the theory of modular forms, from which all rational elliptic curves arise, with an eye toward the Modularity Theorem. Discussion covers elliptic curves as complex tori and as algebraic curves; modular curves as Riemann surfaces and as algebraic curves; Hecke operators and Atkin-Lehner theory; Hecke eigenforms and their arithmetic properties; the Jacobians of modular curves and the Abelian varieties associated to Hecke eigenforms. As it presents these ideas, the book states the Modularity Theorem in various forms, relating them to each other and touching on their applications to number theory. The authors assume no background in algebraic number theory and algebraic geometry. Exercises are included.

From reader reviews:

Van Gee:

Book is written, printed, or outlined for everything. You can learn everything you want by a e-book. Book has a different type. As it is known to us that book is important issue to bring us around the world. Alongside that you can your reading proficiency was fluently. A publication A First Course in Modular Forms (Graduate Texts in Mathematics, Vol. 228) will make you to possibly be smarter. You can feel much more confidence if you can know about everything. But some of you think which open or reading a book make you bored. It is not make you fun. Why they are often thought like that? Have you in search of best book or acceptable book with you?

Michael Counts:

Reading a publication tends to be new life style on this era globalization. With reading through you can get a lot of information which will give you benefit in your life. With book everyone in this world could share their idea. Guides can also inspire a lot of people. A lot of author can inspire their own reader with their story as well as their experience. Not only the story that share in the publications. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors on earth always try to improve their expertise in writing, they also doing some analysis before they write for their book. One of them is this A First Course in Modular Forms (Graduate Texts in Mathematics, Vol. 228).

Marie Slaughter:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their sparettime with their family, or their own friends. Usually they performing activity like watching television, planning to beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your own personal free time/ holiday? May be reading a book is usually option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of publication that you should read. If you want to try look for book, may be the reserve untitled A First Course in Modular Forms (Graduate Texts in Mathematics, Vol. 228) can be great book to read. May be it could be best activity to you.

Ian Hall:

Beside this A First Course in Modular Forms (Graduate Texts in Mathematics, Vol. 228) in your phone, it can give you a way to get closer to the new knowledge or facts. The information and the knowledge you may got here is fresh through the oven so don't become worry if you feel like an old people live in narrow small town. It is good thing to have A First Course in Modular Forms (Graduate Texts in Mathematics, Vol. 228) because this book offers to your account readable information. Do you oftentimes have book but you seldom get what it's all about. Oh come on, that won't happen if you have this in your hand. The Enjoyable arrangement here cannot be questionable, just like treasuring beautiful island. Techniques you still want to

miss the idea? Find this book and also read it from today!
