**Research Handbook on Governance of the Internet (Elgar Original reference)** Ian Brown
The internet is now a key part of everyday life across the developed world, and growing rapidly across developing countries. This *Handbook* provides a comprehensive overview of the latest research on internet governance, written by the leading scholars in the field.

With an international focus, it features contributions from lawyers, economists and political scientists across North America, Europe and Australia. They adopt a broad multidisciplinary perspective, taking in law, economics, political science, international relations, and communications studies. Thought-provoking chapters cover topics such as ICANN, the Internet Governance Forum, grassroots activism, innovation, human rights, privacy in social networks, and network neutrality.

Being a forward-looking guide for the next decade, this *Research Handbook* will strongly appeal to scholars and graduate students in the social sciences studying and researching internet governance, political scientists, economists, lawyers and computer scientists working on governance issues, as well as regulators and policymakers responsible for internet governance in national governments and intergovernmental organizations.
