The Logic of American Politics

Samuel Kernell, Gary C. Jacobson, Thad Kousser

The Logic of American Politics Samuel Kernell, Gary C. Jacobson, Thad Kousser
Consistently praised for its engaging narrative, Logic hooks students with great storytelling while arming them with a "toolkit" of institutional design concepts-command, veto, agenda control, voting rules, and delegation. Students are exposed to real political science in the introductory course and learn to recognize a rationale for how the American political system was designed and why it works the way it does. More than 100 tables, figures, and maps offer visual context to an array of political data and analysis, while over 200 carefully chosen photographs enhance the book's examples and insights. Bolded key terms, a glossary, annotated reading lists, review questions, and a companion website help students read, think, and study.
