## **Photoshop® for Interior Designers: A Nonverbal Communication** Suining Ding

*Photoshop for Interior Designers* introduces step-by-step techniques for interior designers to successfully use Adobe Photoshop to visually communicate their design concept through graphic images and to illustrate design ideas through a visual thinking process. Instructions show how to integrate hand drawings and freehand sketches into digital drawings. Basic and advanced techniques presented include creating floor plans and elevations, preparing perspectives or isometric drawings, and applying materials, lightings, background and entourages for interior design presentations. Taking a multi-media approach, the text demonstrates how to use Photoshop to refine and modify drawings created in Google Sketchup, AutoCAD and other 3D software programs, and introduces how to use InDesign to seamlessly create graphic layouts for presentation to clients.
