REVIEWS

"This book must rate a perfect "10" for your reference library...the heavyweight champion of reference books for anyone interested in modeling the World War II G.I.'s and their equipment... one resource book that can just about do it all...This treasure book even concludes with a selection of some trophies "liberated" from the other side. If you can only buy one book for your WWII G.I. references, buy Government Issue and see where the term "G.I." came from. Thank you, Mr. Enjames."
