# Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering)

*B. P. Lathi, Zhi Ding*

## **Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering) B. P. Lathi, Zhi Ding**

An ideal first text on communication systems in electrical engineering, *Modern Digital and Analog Communication Systems* is now in its fourth edition. Retaining the superb pedagogical style of the first three editions, the authors first introduce the fundamentals of signals and systems and core communication topics; they then present the tools essential to the design and analysis of digital communications. Featuring a seamless blend of mathematics and heuristics, carefully crafted examples to clarify mathematical abstractions, and new and updated MATLAB exercises, this text provides a thorough coverage of modern communication system theory and application that is easily accessible to students.

*Modern Digital and Analog Communication Systems* is suitable for students with or without prior knowledge of probability theory. Only after laying a solid foundation in how communication systems work do the authors delve into analyses of communication systems that require probability theory and random processes. Revised, expanded, and updated throughout, the fourth edition reflects the many technological advances in the field, such as OFDM and CDMA, pervasive communication applications such as cellular systems, wireless LAN systems, and DSL modem technology services.

### **Features**

- \* Flexible organization (outlined in the preface) that accommodates a variety of course structures, including one-semester, two-semester, one-quarter, and two-quarter
- \* Accessible to students with no background in probability theory
- \* Abundant real-world examples that are applicable to students' everyday lives
- \* Gives intuitive insights--rather than just proofs--wherever possible, as well as heuristic explanations of theoretical results

A solutions manual is available for adopting professors.

### **From reader reviews:**

#### **Inge Reader:**

Can you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Try to pick one book that you just dont know the inside because don't judge book by its deal with may doesn't work at this point is difficult job because you are frightened that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer might be Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering) why because the great cover that make you consider concerning the content will not disappoint an individual. The inside or content will be fantastic as the outside or perhaps cover. Your reading sixth sense will directly assist you to pick up this book.

#### **Nellie Kim:**

Is it anyone who having spare time after that spend it whole day by means of watching television programs or just lying on the bed? Do you need something totally new? This Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering) can be the answer, oh how comes? A book you know. You are thus out of date, spending your spare time by reading in this brand new era is common not a nerd activity. So what these publications have than the others?

#### **Robin Curtin:**

Book is one of source of expertise. We can add our know-how from it. Not only for students but additionally native or citizen will need book to know the up-date information of year to help year. As we know those guides have many advantages. Beside most of us add our knowledge, can also bring us to around the world. By the book Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering) we can have more advantage. Don't you to be creative people? To become creative person must prefer to read a book. Just choose the best book that suited with your aim. Don't be doubt to change your life at this book Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering). You can more appealing than now.

#### **Shirley Drago:**

Some individuals said that they feel fed up when they reading a publication. They are directly felt this when they get a half parts of the book. You can choose often the book Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering) to make your reading is interesting. Your personal skill of reading talent is developing when you such as reading. Try to choose straightforward book to make you enjoy to see it and mingle the sensation about book and reading through especially. It is to be 1st opinion for you to like to start a book and study it. Beside that the publication Modern Digital and Analog Communication Systems (The Oxford Series in Electrical and Computer Engineering) can to be your brand-new friend when you're truly feel alone and confuse in what must you're doing of these time.
