Surf Science: An Introduction to Waves for Surfing, 3rd Ed. Tony Butt

Have you ever wondered where waves come from? What makes every one different, why some peel nicely and others just close out? Why, some days, waves come in sets of six and others in sets of three, and what factors affect the behavior of a surfing break? If you have, this book is for you.

Now in its third edition, *Surf Science* is the first book to talk in depth about the science of waves from a surfer's point of view. It fills the gap between surfing books and waves textbooks and will help you learn how to predict surf. You don't need a scientific background to read it--just curiosity and a fascination for waves.

From reader reviews:

Beth Murray:

What do you concentrate on book? It is just for students because they are still students or the idea for all people in the world, exactly what the best subject for that? Just simply you can be answered for that issue above. Every person has several personality and hobby for each other. Don't to be compelled someone or something that they don't wish do that. You must know how great as well as important the book Surf Science: An Introduction to Waves for Surfing, 3rd Ed.. All type of book would you see on many options. You can look for the internet solutions or other social media.

Jeremy Hutchings:

The reason? Because this Surf Science: An Introduction to Waves for Surfing, 3rd Ed. is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will distress you with the secret the idea inside. Reading this book next to it was fantastic author who all write the book in such remarkable way makes the content interior easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of rewards than the other book possess such as help improving your proficiency and your critical thinking technique. So , still want to hold up having that book? If I were you I will go to the book store hurriedly.

Todd Voss:

Is it anyone who having spare time and then spend it whole day by simply watching television programs or just resting on the bed? Do you need something totally new? This Surf Science: An Introduction to Waves for Surfing, 3rd Ed. can be the respond to, oh how comes? It's a book you know. You are and so out of date, spending your time by reading in this new era is common not a nerd activity. So what these publications have than the others?

Ruth Coleman:

What is your hobby? Have you heard in which question when you got scholars? We believe that that question was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And you also know that little person just like reading or as reading become their hobby. You should know that reading is very important and also book as to be the point. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You see good news or update regarding something by book. Amount types of books that can you take to be your object. One of them is Surf Science: An Introduction to Waves for Surfing, 3rd Ed..
