The Triumph of God over Evil: Theodicy for a World of Suffering (Strategic Initiatives in Evangelical Theology) William Hasker

Noted philosopher William Hasker explores a full range of issues concerning the problem of evil. Having taken account of the current state of the discussion and squarely facing some of the most trenchant arguments marshaled by John K. Roth and D. Z. Phillips, Hasker forges a constructive answer in some depth showing why the evil in the world does not provide evidence of a moral fault in God, the world's creator and governor. A fresh and provocative contribution to the ongoing discussion of theodicy.
