## **Children's Adjustment to Adoption: Developmental and Clinical Issues (Developmental Clinical Psychology and Psychiatry)** David Brodzinsky, Daniel W. Smith, Anne Brodzinsky

Focusing on developmental and clinical issues in children's adjustment to adoption, the authors introduce this volume with an overview of historical and contemporary perspectives, then explore various theories that have addressed the issue of psychological risk associated with adoption.

Following a review of empirical research on factors that influence the adjustment process, the authors discuss different types of adoption, analyze methodological problems, and discuss clinical and assessment issues that commonly arise in work with adoptees and their families.
