**The Mind of the Maker** Dorothy L. Sayers

This classic, with a new introduction by Madeleine L'Engle, is by turns an entrancing meditation on language; a piercing commentary on the nature of art and why so much of what we read, hear, and see falls short; and a brilliant examination of the fundamental tenets of Christianity. *The Mind of the Maker* will be relished by those already in love with Dorothy L. Sayers and those who have not yet met her.

A mystery writer, a witty and perceptive theologian, culture critic, and playwright, Dorothy Sayers sheds new, unexpected light on a specific set of statements made in the Christian creeds. She examines anew such ideas as the image of God, the Trinity, free will, and evil, and in these pages a wholly revitalized understanding of them emerges. The author finds the key in the parallels between the creation of God and the human creative process. She continually refers to each in a way that illuminates both.
