*Tom Henthorne*

**William Gibson: A Literary Companion (Mcfarland Literary Companions)** Tom Henthorne  
William Gibson, author of the cyberpunk classic, *Neuromancer* (1984), is one today's most widely read science fiction writers. This companion is meant both for general readers and for scholars interested in Gibson's oeuvre. In addition to providing a literary and cultural context for works ranging from Gibson's first short story, "Fragments of a Hologram Rose" (1977), to his recent, bestselling novel, *Zero History* (2010), the companion offers commentary on Gibson's subjects, themes, and approaches. It also surveys existing scholarship on Gibson's work in an accessible way and provides an extensive bibliography to facilitate further study of William Gibson's writing, influence, and place in the history of science fiction and in literature as a whole.
