Memory Harvest of a Sharecropper's Son Book 2 (Volume 2) Jerry Blackerby

Although born on a farm as a sharecropper's son, I became fascinated with radios and electronics before television existed. I dreamed of the possibilities of space travel because of Buck Rogers and Flash Gordon. Because of moving, I attended many different schools including three in the first grade and three my senior year. I met and married my wonderful wife within about three months after being in the Navy during the Korean War. I was one of the early people working downrange in the Bahamas Islands when we first began launching satellites from Cape Canaveral. For two-years my family roughed it in a 3-room shack on Grand Bahama Island because the company did not support families. My wife had a major heart attack in 1989 that damaged her heart. The doctors said she would probably only live another 5-10 years. She lived almost 22 years after the heart attack, but it was a downhill trek. I became her caregiver, 24/7, as her health declined. This is a second book, containing additional stories about our lives and memories. I also included funny things done or said by our children, grandchildren and grandchildren.
