This ambitious book is a personal psycho-spiritual journey, a theorization on the meaning of the monuments of Mars, a guidebook for transcending present three-dimensional limitations, and an account of our function within the grand celestial battle between internal and external knowledge. The newly revised and expanded edition of this cult classic features photos and illustrations throughout, and adds the Lucifer Rebellion, the solar storm, and the final three breaths of the merkaba meditation. The author emphasizes the importance of meditation for promoting the understanding of and connection to the metaphysical.
