Farmall, International Harvester and Case-IH tractors built from 1958 to 2013 are covered with in-depth information about how these tractors were designed and constructed. The story traces the innovations and struggles of the final days of Farmall and International Harvester, and then the exciting story of the creation of the Case-IH Magnum, an innovative machine that blends some of the great engineering done by International Harvester in their final days with thoughtful engineering additions and refinements from the newly blended team. With a mix of new photography of some of the most exceptional collectible models in existence along with hundreds of previously unpublished photographs from the IH and Case-IH archives, this thorough book is the most authoritative guide on red tractors ever published.
